SUMMARY

Fourth-year Information Technology student with hands-on experience in UI/UX design, web development, and project management, and a foundation in technical support. Seeking an internship opportunity to contribute my skills, bring value to the company, and grow as an IT professional.

EDUCATION

National University – Fairview
(2023-Present)

Bachelor of Science in Information Technology major in Mobile and Internet Technologies
Dean's List Honoree (1st Year to 4th Year, 1st Term)
(Expected Graduation: 2027)

Lagro High School
(2017-2023)

Junior High School and Senior High School
Information and Communications Technology (ICT) Strand
Graduated with Honors

PROJECTS

VHEcoPoint — Smart Waste Segregation Station and QR-Based Incentive System | October 2026
Project Manager, UI/UX Designer and Prompt Engineer

- Led project planning and deliverables for VHEcoPoint, a smart waste station that scans users' QR codes to credit recycling incentives.
- Designed user interfaces and end-to-end user flows for QR verification, recycling sessions, and points tracking.
- Developed website features using AI-assisted development and prompt engineering.

VictorianPass – Online Amenity Reservation & QR-Based Entry Pass | October 2025
Project Manager, UI/UX Designer and Prompt Engineer

- Managed project tasks, requirements, and team coordination for a web-based system that lets residents reserve subdivision amenities and enter them through QR-coded passes.
- Designed user interfaces and booking flows for three user groups: residents, administrators, and security personnel.
- Built core website features through AI-assisted development and prompt engineering.

Click to Borrow – Web-Based ITSO Equipment Borrowing System | February 2025
UI/UX Designer

- Designed the full prototype interface and user flows for an equipment borrowing system, enabling students to request items such as HDMI cables through a website accessed at the ITSO office.
